- ERP & E-Procurement Systems
- Logistics Coordination & Material Follow-Up
- Cross-Departmental Collaboration
- Process Improvement & Operational Excellence
- Reporting, Analysis & KPI Tracking
- Team Leadership & Department Management

PROFESSIONAL EXPERIENCE

Procurement & Tender Expert
Golden Sparrow Trading Co, UAE **Oct 2025 - Present**

- Leading the company's Procurement Function, managing sourcing operations, supplier evaluation, negotiations, and contracting across multiple categories.
- Driving strategic sourcing initiatives to ensure cost efficiency, supplier reliability, and compliance across all purchasing activities.
- Handling the complete procurement cycle — from RFQs and comparative analysis to contract execution and vendor performance management.
- Established and currently leading the Tendering & Bidding Function from scratch, building the entire structure, workflows, documentation systems, and compliance governance.
- Developing and implementing company-wide Compliance, HSE, ESG, Anti-Bribery, and Code of Conduct Policies, ensuring alignment with UAE regulations, client standards, and international best practices to support tendering and registration readiness.
- Preparing detailed Bidding Plans defining project timelines, resource allocation, risk control, and commercial strategies to ensure competitive and compliant submissions.
- Developing and implementing the Bid Management Framework covering pre- and post-bid stages, documentation control, and approval workflows.
- Standardizing and improving internal tender processes, integrating tracking tools, master registers, and approval matrices to enhance control and efficiency.
- Managing company registrations and qualifications across major government, semi-government, and private supplier portals, ensuring full compliance and readiness for tender participation.
- Identifying and evaluating new tender opportunities, conducting commercial and technical analysis to assess feasibility, competitiveness, and alignment with company capabilities before bid confirmation.
- Leading and guiding cross-functional teams — including Sales, Marketing, Finance, Operations, Supply Chain, and Management — to ensure every department fulfills its role in proposal preparation, submission, and compliance.
- Overseeing technical and commercial proposal documentation, ensuring clarity, accuracy, and professional presentation in every submission.
- Monitoring bid outcomes and performance metrics, analyzing win/loss ratios, pricing benchmarks, and supplier competitiveness to support continuous improvement.
- Collaborating directly with the General Manager and Managing Directors on sourcing strategies, bid planning, and governance to enhance competitiveness and transparency.
- Reporting to the Managing Directors on performance, sourcing results, bid progress, and compliance KPIs.

Procure-to-Pay & Master Data Executive
Americana Foods, GCC **Apr 2025 - Sept 2025**

- Managed the complete Procure-to-Pay (P2P) cycle, overseeing purchase requisitions, approvals, and the creation of Purchase Orders (POs) with precision and compliance to corporate standards.
- Created and issued Purchase Orders (POs), ensuring accurate pricing, quantities, delivery terms, and specifications prior to approval and release.
- Collaborated with vendors, procurement, and finance to maintain smooth purchase operations, resolve discrepancies, and ensure timely delivery of materials.
- Maintained and optimized Master Data (MDM), including Vendor Master, Customer Master, and Item Master, ensuring data integrity and alignment across systems.
- Collaborated with procurement, finance, sales, and IT teams to support seamless data flow and integration across business systems.
- Conducted data validation and quality reviews, correcting duplicates, gaps, and classification errors to strengthen reporting accuracy and audit readiness.
- Supported data migration and system enhancement activities, including SKU harmonization for National Food Company (Meat) and National Food Company (Cake) divisions — unifying product codes to improve traceability and reporting.
- Streamlined documentation and record control for POs, supplier details, and audit logs to ensure transparency and compliance with governance policies.
- Utilized various enterprise procurement and data management platforms to manage workflows, approvals, and master data updates.
- Contributed to process improvement and automation initiatives, enhancing efficiency and governance across P2P and MDM operations.

Procurement & Tender Executive
Fractal Systems, UAE **Jan 2024 - Apr 2025**

- Successfully led the entire supply chain process, including procurement, logistics, and operations tender pitching process for over a year in a fast-paced, project-driven environment
- Managed the complete procurement lifecycle from RFPs to POs, implementing strategies aligned with company goals and operational needs.
- Directed logistics and operations teams across all projects, collaborating with international cargo providers to optimize supplier performance and ensure timely, cost-effective deliveries.
- Sourced, onboarded, and built strong relationships with vendors across various industries—focusing on cutting-edge technologies to drive growth—and regularly met with suppliers to strengthen long-term partnerships.
- Monitored vendor performance, enforced contract terms, and ensured quality standards and delivery timelines—while proactively resolving disputes and implementing improvement measures.
- Budgeted projects to reduce costs by exploring alternative solutions and negotiating better prices—achieving 10–20% savings on most projects—while securing favorable payment terms to support cash flow and maximize profit. Developed detailed cost-tracking reports for each project.
- Led complex contract negotiations, balancing budget, quality, and service requirements to achieve impactful and cost-effective outcomes.
- Sought out new tools, trends, and processes to enhance efficiency, maintain a competitive edge, and drive operational improvements.
- Acted as a procurement advisor to senior leadership, leveraging market insights and procurement expertise, and collaborated with sales teams by attending client meetings to provide tailored solutions.
- Conducted cost analyses and prepared competitive quotations for clients in coordination with internal teams, while attending sales team meetings to understand project requirements and advise on solutions and pricing.
- Managed registration and compliance processes with government entities and major organizations across the UAE, KSA, and Europe —ensuring regulatory compliance and coordinating with internal teams.
- Oversaw the end-to-end tender process, analyzed client requirements, and coordinated documentation and pricing strategies with internal teams.
- Collaborated with sales teams to develop bid strategies, advised on go/no-go decisions, and conducted market research for new tender opportunities and optimized submissions.
- Maintained and updated client-supplier portals to ensure data accuracy, stakeholder accessibility, and timely renewal of registrations and compliance documents.
- Reviewed purchase requisitions, solicited bids, and ensured compliance with company policies and regulatory requirements throughout the procurement process.
- Attended industry events and exhibitions to stay updated on trends, build connections, and meet suppliers to foster strong relationships.
- Partnered with internal teams to align procurement and operational strategies with broader business goals—from event planning to technical solution delivery.
- Monitored the team and created reports to track purchase orders, logistics, project costs, and pitching progress in alignment with organizational objectives.

Procurement & Logistics Officer
Hafa Trading CO, KSA **Aug 2021 - Jun 2023**

- Sourced and evaluated potential vendors, managing RFQs and selecting optimal suppliers through comprehensive quotation comparisons and negotiations on quality, pricing, delivery, and service terms.
- Ensured efficient execution of all purchasing tasks, including issuing purchase orders, tracking orders, and coordinating with vendors to maintain on-time deliveries.
- Managed procurement data by entering order details into internal databases and ERP systems, maintaining accurate, up-to-date records on purchased products, delivery schedules, and invoices.
- Prepared purchase reports, conducted cost and profit analyses, monitored stock levels, and placed orders to ensure inventory was aligned with organizational needs.
- Coordinated closely with warehouse staff to ensure proper storage and collaborated with operations to support a streamlined, efficient supply chain.
- Built strong relationships with vendors and shipping partners across air, land, and sea freight, leveraging systems like SABER and handling all necessary certificates for Saudi customs compliance.
- Trained and mentored junior procurement staff, fostering a collaborative environment and encouraging professional growth within the team
- Utilized software tools, including Odoo, Microsoft Office Suite, and ERP systems, to manage documentation, produce correspondence, and organize shipment materials for international import/export.

E-Commerce Buyer - Remotely
Saudi Supplier **Jul 2021 - Apr 2023**

- Identified and built relationships with reliable vendors and suppliers, selecting and evaluating proposals to enhance retail sales potential.
- Procured goods, materials, and services that met cost, quality, and delivery targets, utilizing market research, competitor analysis, and product testing to guide purchasing decisions.
- Monitored and managed purchase orders, generating comprehensive reports for the management team to maintain transparency and informed decision-making.
- Boosted profitability through strategic purchasing, carefully planning acquisitions to secure suitable goods at competitive prices.
- Facilitated communication between suppliers and internal departments, supporting the buying process, new projects, and operational activities.
- Collaborated with cross-functional teams to ensure alignment of procurement activities with broader business goals, fostering a culture of teamwork and continuous improvement.
- Conducted price and market trend forecasting, analyzed cost structures, and implemented cost reduction initiatives, capitalizing on market opportunities and managing potential risks.
- Oversaw the entire purchase order process, including determining order quantities and delivery timing, to maintain optimal inventory and meet demand forecasts.

Supply Chain Coordinator
Retail Stores of Second Egyptian Army **Nov 2019 - Jan 2021**

- Supported the supply chain for seventeen retail branches, ensuring smooth operations aligned with company goals.
- Developed and executed supply chain strategies that enhanced efficiency and supported business objectives.
- Monitored and maintained optimal inventory levels across all branches to consistently meet customer demand.
- Conducted regular inventory audits to maintain precise stock records across branches.
- Oversaw fleet operations, optimizing delivery routes, tracking shipments, and managing delivery schedules to maximize efficiency.
- Collaborated with suppliers, vendors, and distributors to ensure timely procurement and distribution of goods across branches.
- Led and motivated sales teams to achieve branch sales targets and meet monthly profit goals established by management.
